Statement Calling for an Investigation into Recent Behavior by Monroe County District Attorney Sandra Doorley

Rochester, NY
April 27, 2024

We request an inquiry into the recent conduct of Monroe County District Attorney Sandra Doorley. As elected officials, we are not above the law and should be held to a higher standard. Average citizens need to know that elected officials are held accountable as would any other person. This type of behavior is disturbing and requires the fullest scrutiny and disciplinary action. Incidents like this shed light on the inequities of our criminal justice system. This behavior is an unfortunate display of privilege and should not be swept under the rug.

We call upon New York State Governor Kathy Hochul and Attorney General Letitia James to exercise their power to investigate the recent troubling behavior by District Attorney Sandra Doorley. We further call upon the County Office of Public Integrity and ethics board to look into the matter.

The public demands these actions be investigated to the fullest extent.
